Wells Primary & Nursery School Autumn Term

Welcome to our first Maths Newsletter. We hope you enjoy reading about what each class has been doing this term in Maths.

In Reception Class we have been exploring with number in lots of different ways to develop the children's number sense. As well as our focused adult led Maths sessions the children have engaged in activities through their child led

This term in Year 3 we have been focusing on using a variety of equipment and resources throughout our maths learning. We have focused on the four calculations (addition, subtraction, multiplication and division) and have explored different methods to support us when solving problems. We have also started to look at certain aspects surrounding shape and measure, through which we have measured length, mass and capacity in a variety of ways.

Maths Café's
Thank you for supporting our Maths Café's this term. These are going to be a regular event, each class will host one each term. The children really enjoy learning together with
