Year 6

We have really enjoyed making Rabbit Mocktails this week. After making and testing some Mocktails, the children used the data they had collected to try and design a winning recipe. This gave them great practise in finding averages, measuring accurately and using ratios. As always we saw some superb teamwork. Well done Y6! This week we have also been looking back over the year in preparation for writing our Leavers' Assembly. This will take place on the last day of term, so put the date in your diary!

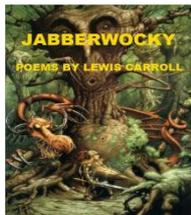

Year 5

We have begun our new topic on ancient Egypt, kicking it off by mummifying tomatoes. Everyone enjoyed following the procedure and we cannot wait to see the results in four weeks time. Now we are looking at different attractions and historical places in Egypt and creating our own map. In Maths we have moved on to factors and multiples, trying different activities to improve our confidence when identifying them. The Secret Garden is still the focus in English and the children have enjoyed role playing particular characters from the book.

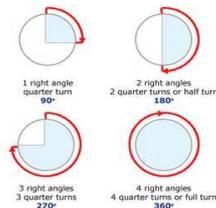

Year 4

Thank you to everyone who came to our assembly last Thursday. We hope you enjoyed listening to our writing. We are continuing to study poems this week and we are using our knowledge of nouns, verbs, adjectives and adverbs to work out what the Jabberwocky by Lewis Carroll might mean. We hadn't realised that Jabberwocky was written by the same author who wrote Alice in Wonderland.

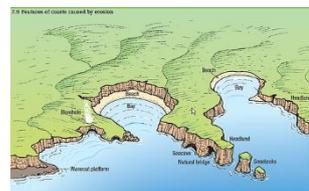

Year 3

Thank you to those who came to our assembly, we hope you enjoyed it. This week we have been learning about angles in maths, focusing on describing angles as turns. Within English we have been continuing our own persuasive adverts, which will be going on display in the classroom. We enjoyed using the sugar smart app in class to find out about the amounts of sugar in a variety of foods and drinks, linking to our current topic.

Year 2

We have continued to work on our new book, 'The Woods', looking at the use of noun phrases. We have also been practising how to use inverted commas in our writing. In Topic the children have been learning about human and physical features of coastal landscapes and have been thinking about what Wells beach is like. This week in Maths the children are using number lines to work out additions to 100, solving problems related to the book, 'The Rabbit Problem'. A reminder for you: Y2's class assembly is next Thursday, 22nd June, at 9:10 in the hall so we look forward to seeing you there.

Nursery

This week in Nursery School we are thinking about Humpty Dumpty. Why did he climb up a wall in the first place?

The Nursery children decided to see if they could find a suitable wall to sit on. After several

false starts this is the wall they thought Humpty Dumpty might use!

We then built our own walls using construction apparatus. Leo's was the tallest.

New Year 3 teacher for September 2017

We are delighted to welcome Miss Emma Pamphilion to the teaching team here at Wells Primary from September. We are very fortunate that she is volunteering in school for the second half of this term so she is getting to know the school set up and meet the children in the current Year 2 class.

Celebration of Success Ceremony

As in previous years we will be holding our 'Celebration of Success' Assembly on Monday 10th July at 1.30pm at the Alderman Peel High School. We look forward to welcoming you all then.
