

## Wells-next-the-Sea Nursery School Newsletter Summer Term 2018 - Week 2

The children have been exploring the things we need water for this week, from washing up to watering plants!

We have planted more flowers and vegetables. The children have been really good at watering the plants, the new water butt has definitely been a success!

Having read the story "Jaspers Beanstalk!" we planted some of the bean seeds we had collected from last year's beans. We have put them in our "Greenhouse" to germinate. We have also built a wigwam in one of our flower beds, so we can plant them outside when the time comes.

We had a look at lots of different seeds and found they were all different shapes and sizes. Some were so small they were very tricky to count!

### Diary dates

2<sup>nd</sup> May, Nursery Relaunch. Please spread the word to all families with young children.

17<sup>th</sup> May, Story Café. The children will be performing their own class story for everyone to hear.

15<sup>th</sup> June, visit to the Sealife Centre in Hunstanton. We will send you a letter to let you know the details nearer the time.

Juliet Hardy, Jess Craske and Naomi Tottle (Nursery Team)
