

Wells-next-the-Sea Nursery School Newsletter Summer Term 2017 - Week 3

The children continue to enjoy their topic work. Their beans and peas have germinated and are looking very healthy. We collected some long willow sticks and have made them into a wigwam ready to grow the beans up.

We have encouraged the children to identify different vegetables using their senses. They have also used vegetables creatively.

Tasting different vegetables was a great success. Mange tout peas, red pepper and cucumber were the firm favourites.

We have also potted out more seeds, ready for planting in the garden area.

Next Thursday, 11th May, we will have our next Story Café, from 11 to 12 noon in the Nursery School. All welcome!

Juliet Hardy and Jess Craske (Nursery Team).
