

This week we have continued to work with the "Owl Babies" text.

We have compared different types of owls and thought about where they live and what they eat.

We have also talked about other nocturnal animals and listened to the noises they make.

The children really enjoyed making banana and chocolate buns. They gave the buns eyes and a beak so they looked like owls. They were very tasty!

We continue to encourage the children to explore their own ideas both inside and outside the classroom.
