

We resume our minibeast theme this week, searching for, and finding caterpillars in the Garden Area.

We put the caterpillars in a tank with some of the leaves we found them on. We experimented with different leaves to see which they liked best. The holes in their favourite leaves have been getting bigger each day!

We have planted lots of flowers to see which ones attract the most minibeasts.

The older children had a great time in Reception Class during their Transition Morning. Thank you to all the parents who came to our Class Assembly. We were very proud of their confidence in performing in front of such a crowd.

Diary dates- Nursery School will be visiting the grounds at Holkham Hall for a picnic on 4<sup>th</sup> July, The Sealife Centre in Hunstanton on 14<sup>th</sup> July and joining in with the whole school activities on the beach at Wells on 19<sup>th</sup> July. We will be sending out letters asking for help shortly.

Juliet Hardy and Cat Cameron (Nursery Team)
