

It has been a good first week back! All the children, new and old, have settled well and are enjoying being able to get out into the outside area now the weather is warmer.

This term our whole school topic is "Living on an Island". We will, however, be concentrating on the minibeasts that live on our island.

We have spent the last few days searching for minibeasts in our outside area ...

and in the Forest Area.

The children have enjoyed recording their findings.

Inside, the children have been just as busy, familiarising themselves with our new classroom layout.

Juliet Hardy, Cat Cameron and Tara Betts (Nursery Team).
